

## **SMWC Class of 1981 Notes**

**Tamara “Tammi” Buczynski Vallo** lost both of her parents within six days of each other in 2025. They were fortunate to be able to remain at home through the help of family, caregivers and hospice. Her mother-in-law passed as well. She welcomed her third granddaughter as well. She now has three granddaughters and a grandson. She retired six years ago, and her husband retired in January 2026.

**Marie Ayers Roberts** retired in December after teaching for 23 years so now she gets to do whatever she wants. Mark and she are traveling to London, Scotland and Ireland in May.

**Beverly Groeber Williams** retired November 2024 and hubby in January 2025, and they are loving it! They are traveling more to see kids in Austin and Atlanta; catching up with friends; hitting the gym more and doing all the things you don't get to do when you work full time. Looking forward to seeing everyone at Reunion!

**Corinne Kreiner-Bardgett** celebrated my mom's 100th birthday in July with a big bash. Then in late August she passed. Oldest grandchild Alexis is a freshman at the University of Kansas. Her brother, Kyle, is now driving. The rest of my family is doing well. Tim will have knee surgery in April. We are traveling to London in September to see the KU game in Wembley Stadium.
